

SAMSUNG OFFICESERV CLI TRANSLATION TABLE PROGRAMMING GUIDE

TO CHANGE OR ADD CLI TRANSLATION NUMBERS & NAMES THROUGH THE SAMSUNG HANDSET

From any handset press the **Transfer key** and dial **200**, the display will show ENABLE CUS. PROG. & PASSCODE :

Enter customer passcode which is **1234**

Press **1** to ENABLE CUS. PROG, then press the **Speaker Key**

Enter the system CLI Translation table programme by dialling **728**

Dial the entry number required (e.g. 0001) OR press volume **UP** or **DOWN** to make your selection, once you have the right entry number press the right soft key (under the display) to move the cursor over.

Enter the **Telephone number** and press the right soft key to advance to **Name** entry

Names are written using the number keys. Each press of a key selects a character, as shown on the selected key. Pressing a different key moves the cursor to the right. For example, you want to enter the name "SAM SMITH." The first letter "S" is selected by pressing the dial key number 7 four times (i.e. the first key press selects "P", the second selects "Q", etc). Then press the number 2. This moves the cursor and selects the letter "A."

When the next character you want appears on the same key as the character you have just entered press the volume UP key to move the cursor to the right, then select the next character.

Press the right soft key to return to the entry number to change or add more

ONCE YOU HAVE FINISHED ENTERING THE SPEED DIAL NAMES PRESS THE TRANSFER KEY TO SAVE & EXIT PROGRAMMING
